

PROFESSIONAL SUMMARY

I am a dedicated Full Stack Developer with a Bachelor's degree in Computer Applications and a solid Foundation in both front-end and back-end technologies. My core competencies include HTML, CSS, JavaScript, Python, MySQL, and Django, along with hands-on experience in tools like React.js, Bootstrap, Streamlit, and Figma. I am a fast learner with a passion for solving complex problems, collaborating effectively Within teams, and continuously enhancing both my technical and communication skills.

EDUCATION

BCA | 2024

Arulmigu Palaniandavar College Of Arts & Culture

Dindigul - TamilNadu.

Higher Sec.School | 2019

State Board of School

Dindigul - TamilNadu.

SKILLS

- Python
- MySQL
- HTML
- CSS
- JavaScript
- React.JS
- Bootstrap
- Tailwind CSS
- Figma

CERTIFICATE

Python Full Stack Development

Artificial Intelligence

Computer Vision

Natural Language Processing

Deep Learning

PROJECT EXPERIENCE

Project: Image Steganography

Technologies: Python, HTML, CSS.

Feb 2024 – May 2024

- Built a web application to hide and retrieve secret messages within Image files using Python.
- Utilized HTML/CSS for front-end UI and Python for back-end Steganography logic.
- Handled file upload/download functionality and user authentication

Key features include:

- Message Embedding: Encode secret text within image pixels without Noticeable quality loss
- Message Extraction: Decode and retrieve hidden messages from Stego-images
- Security: Basic encryption ensures the message is securely Embedded and Supports image upload, processing, and download Functionalities

Project: Event Management System

Technologies: Python, Streamlit, MySQL

Jan 2025 – Mar 2025

- Developed a web-based application to manage events, attendees, And registrations using Streamlit.
- Used MySQL as the back-end to store, retrieve, and update event Related data.
- Designed an interactive UI with real-time database connectivity for Seamless event entry, viewing, and filtering.

Key features include:

- User-friendly Streamlit interface with clean layout
- Add, view, update, and delete events and participant records
- Integrated with MySQL for persistent storage
- Designed with modular Python code for easy updates and Maintenance
